**Ontario
Racing
Commission**

The Honourable Norman Sterling
Minister of Consumer and Business Services,
Parliament Buildings,
Queen's Park,
Toronto, Ontario

Dear Mr. Minister:

We are pleased to submit this fifty-first Annual Statistical Report of the Ontario Racing Commission, covering the operations of the Commission during 2000.

There have been a number of significant years in the history of horse racing in the Province of Ontario but the year 2000 will certainly stand out. With the combined effect of the take-out reduction and the opening of the eleventh racetrack slot operation in 2000, the response in the industry has been tremendous. The number of live race dates continues its upward climb, providing racing and entertainment opportunities. Horse sales are seeing numbers not experienced in ten years as we see the impact of increased purses on owners' eagerness to invest. Performance of the annual horse sales also demonstrated the industry's faith in the future with increases of as much as 26%. Revenue from increased wagering and from slot operations has boosted purses an incredible 41%, from \$101 million in 1999 to \$141 million in 2000.

In recognizing the unique relationship between the Commission and the industry it regulates, the Government of Ontario enacted legislation on December 15, 2000 changing the status of the Ontario Racing Commission to a regulatory self-financing agency. This change will provide us with the necessary tools to more effectively regulate the industry. The Commission appreciates your government's confidence in us and in the ability of the racing industry as a whole to enhance its role as a major contributor to the social and economic life of Ontario.

Given the change in our status, our reporting mechanisms will also be changing. This will be the last year that the Annual Report of the Ontario Racing Commission retains this format. Next year's Annual Report will make the transition to a fiscal report for the year ending March 31st, 2002. The Annual Report will now report on the performance of the Commission, with less emphasis being placed on industry statistics.

Yours sincerely,

Stanley Sadinsky, Q.C.
